DEPARTMENT OF LABOR AND INDUSTRY
EMPLOYMENT POLICY DIVISION

TED SCHWINDEN, GOVERNOR

P.O BOX 1728

STATE OF MONTANA

HELENA, MONTANA 59624

This report, published each calendar quarter, is a compilation of employment and wage data. The information is compiled from reports submitted to the Montana Department of Labor and Industry by employers subject to the Montana unemployment insurance law. Also included in the report are similar data for federal government employees in Montana.

Employment and wages are totaled according to county, private ownership, government and industry.

A special thank you to:

Debbie Olson, Statistician, who analyzed the data and wrote the text.

Gerry Hiles, Research Specialist, who assisted in the analysis of data.

Paula Welsh, Statistical Technician, who compiled the graphs.

Chris Noland, Statistical Clerk, who entered data into the computer and distributed the publication.

Nancy Harte, Assistant to the Commissioner, who edited the publication.

If you have any questions, please contact Debbie Olson at (406) 444-2430.

Quarterly Summary of Employment and Total Earnings by County by Industry 1

Quarterly Statewide Summary of Employment and Total Earnings by Industry 116

GLOSSARY

COVERED EMPLOYMENT
The employment reported by employers whose total annual payroll exceeds $1,000 in a calendar year.

Also includes employment reported by:
- -Agricultural employers if they paid $20,000 or more in a quarter, or if they employ 10 or more workers on 20 days in 20 different weeks in a calendar year.
- -Domestic service employers if they paid $1,000 or more in any quarter.
- -Self-employed persons on a voluntary basis.

Excludes:
- -Individuals in employment of son, daughter or spouse.
- -Children under 21 employed by parent.
- -Railroad employees.
- -Real estate or insurance salespeople paid solely by commission.
- -Student workers, inmate workers or patient workers.
- -Elected officials.
- -Church employees.
- -Children under 18 delivering and distributing newspapers or shopping news from house to house and business establishments.

SIC CODE (Standard Industrial Classification Code)
The objective in industry classification is to have each place of business classified on the basis of its principle activity. If a firm conducts different activities at its various establishments, separate industry codes are assigned to the extent possible to each activity. Industry codes are assigned to each reportable establishment based on 'nature-of-business' information employers submit, in accordance with the Standard Industrial Classification Manual, 1972 edition.

ESTABLISHMENT
An establishment is defined as a single physical location at which one, or predominantly one, type of economic activity is carried on. Employers who operate at two or more locations are requested to identify separately the employment and payrolls of each location.

EMPLOYMENT

Employment for a given month is the number of workers covered under the Montana unemployment insurance laws who earned wages from a reporting unit during the pay period which includes the 12th day of the month.

GROSS WAGES

Gross wages, as reported on the quarterly contribution report of employers covered by the unemployment insurance law, are the total amount of compensation paid by the employer during the quarter.

DISCLOSURE RESTRICTIONS

Publication of employment and wage data is withheld for any industry level which consists of fewer than three reporting units or in which a single establishment accounts for 80 percent or more of the industry's employment.

THIRD QUARTER, 1987, IN REVIEW

One third of the employers covered by unemployment insurance are surveyed each year to determine that they are properly classified by:

1. Standard Industrial Classification (SIC), a code that signifies the type of product or service produced by the business;
2. county, with each business assigned a three-digit code according to the county it is located in; and
3. ownership, under which a business can fall into one of of four categories - federal government, state government, local government or private. If the business is a government agency, it falls into one of the government classifications. Otherwise, if the business is owned by a private citizen or citizens, it is classified under private ownership.

This year, the industry groups surveyed were Agriculture, Mining, Construction and Manufacturing. Some of these industries experienced major changes because one or more of the three codes were changed. Changes to SIC, county or ownership codes are made if the employer indicated the business has changed or if the original code was in error.

Virtually all industry groups are affected in some way since businesses may be moved into or out of the industry group when changes are made to the classifications of a particular business. The impact of the change is determined by the change in employment and wages in each industry group (SIC), county or ownership.

Changes are made to first quarter data only, but the impact of those changes may be evident throughout the year, especially when data are compared to previous years.

AGRICULTURE, FORESTRY & FISHERIES (SIC 01-09)

Employment Change from year ago:	+4.9%
Employment Change from previous quarter:	+2.0%

Farm Management Services (SIC 0762), a fairly new industry to Montana, has increased employment in the Agriculture and Forestry industries by approximately 42 employees. All other sections in this division showed an employment improvement during the summer season.

MINING (SIC 10-14)

Employment Change from year ago:	+8.4%
Employment Change from previous quarter:	+11.1%

Metal Mining (SIC 10) has increased employment 44% since September 1986. Approximately one third of this increase is in Gold Ores (SIC 1041)> This continues to be the "shining" industry for the state of Montana.

The increase in Nonmetal Mining (SIC 14) since last quarter continues through the summer months. However, this industry has fallen off from the previous year.

Oil and Gas Extraction (SIC 13) has increased employment 14% since June 1987, and statistics indicate an 8% increase from the previous year.

CONSTRUCTION (SIC 15-17)

Employment Change from year ago:	-16.0%
Employment Change from previous quarter:	+13.1%

The construction industries continue to experience a seasonal increase, up 13% over the previous quarter. This years average employment remains well below the last four years, with employment losses in heavy construction and the general building trades. The majority of this decrease has been due to the industry reclassification survey completed last year. This survey changed the industry designation of several firms originally classified under construction. However, aside from the change due to the survey, there continues to be less activity in the construction trades in comparison to the previous year.

MANUFACTURING (SIC 20-39)

Employment Change from year ago:	-1.3%
Employment Change from previous quarter:	+6.6%

The majority of the improvement over the second quarter is due to the seasonal access to timber tracts as the lumber manufacturing industry increased by 865 employees. Fabricated metals also added 100 employees. The manufacturing industry continues to trail the 1986 employment levels, down 1.3% from the previous year. Significant fluctuations (compared to third quarter 1986) occurred in the following sections:

Stone, Clay and Glass (SIC 32), which gained 80 employees over the previous quarter, remained down 16% from the employment figures of a year ago. This was due primarily to the Ready Mix Concrete (SIC 3273) and Gypsum Products (SIC 3275) which parallel the decrease in construction. (Impact -200 employees.)

Chemicals (SIC 28) remain 15% behind last year. Nearly all of this decline can be attributed to losses in Fertilizers, Mixing (SIC 2875). (Impact -100 employees.)

Food Products (SIC 20) are down 5% owing to Dairy Fluid Products (SIC 2026) and Prepared Feeds (SIC 2048)> One dairy producer withdrew from the state and another stopped production to become a wholesaler and is now classified in SIC 5143. Prepared Feeds lost one manufacturer and generally declined employment statewide. (Impact -150 employees.)

Rubber, Miscellaneous Plastics (SIC 30) is up 42% over the previous year with the addition of two new establishments. (Impact +54 employees.)

Miscellaneous Manufacturing (SIC 39) increased by 19% over third quarter 1986, led by the manufacture of Sporting and Athletic Goods (SIC 3949). This represents an increase of $240,000 in wages. (Impact +96 employees.)

Non-Electric Machinery (SIC 35) production rose 14% over the past year with increases in General Industrial Machinery and Equipment (SIC 3569) and Power Driven Hand Tools (SIC 3546). (Impact +70 employees.)

Lumber Manufacturing (SIC 24) gained 1% over 1986 with its 865 employee gain from the previous quarter. (Impact +89 employees.)

TRANSPORTATION, COMMUNICATIONS, ELECTRIC, GAS AND SANITARY SERVICES (SIC 40-49)

Employment Change from last year:	-3.8%
Employment Change from previous quarter:	-0.2%

As a whole this major division remained fairly stable throughout the year. Since the previous quarter, Local-Urban Transportation (SIC 41) has lost 288 employees (a 26.3% decline). This was due almost entirely to School Buses (SIC 4151) which laid off drivers for the summer months. Compared to third quarter of 1986 this group (SIC 41) had dropped employment by 12.5%. This decrease is due primarily to a drop of 19.0% in Miscellaneous Local Transportation (SIC 4119) which includes ambulance service and sightseeing buses; -16.9% in Rural Highway Passenger Transportation (SIC 4131); and -13.2% in School Buses (SIC 4151).

The Air Transportation industry (SIC 45) in Montana has improved its outlook by 12.1% since the third quarter of 1986. This is due to a general increase in service from major commercial airlines and the introduction of several new commuter flights.

WHOLESALE (SIC 50-51)

Employment Change from year ago:	-1.6%
Employment Change from previous quarter:	+0.9%

The minor employment increase in the wholesale industries since last quarter was almost evenly distributed between Durable Goods (SIC 50, +0.8) and Nondurable Goods (SIC 51, +1.0%). However, since third quarter of 1986 Durable Goods has had an employment loss of 3.3%. This was an overall decrease in many industries with the largest declines occurring in Miscellaneous

Construction Materials (SIC 5039, 43 employees, -12.6%) and Plumbing and Heating Equipment and Supplies (SIC 5072, 41 employees, -13.1%). Most of this appears to be due to cutbacks within the firms although a few isolated businesses have closed their doors.

RETAIL (SIC 52-59)

Employment Change from year ago:	+0.4%
Employment Change from previous quarter:	+3.0%

General Merchandise Stores (SIC 53) has an employment increase of 4.2% since last quarter. This increase appears to be evenly spread across the three categories in this group: Department Stores (SIC 5311), Variety Stores (SIC 5331) and Miscellaneous General Merchandise Stores (SIC 5399).

Due to a greater demand for computers and related products, Radio and Television Stores (SIC 5732), which currently includes computer stores, has increased 9.2% since second quarter 1987, and 24.2% since third quarter of 1986.

Miscellaneous Retail (SIC 59) had another seasonal climb of 3.4% within the summer months as Sporting Goods Stores (SIC 5941) increased employment by 50 (4.7%), and Gift and Souvenir Shops (SIC 5947) increased by 72 employees (14.6%). The only significant employment decrease within the major group occurred in Florists (SIC 5992, 129 employees, 22.1%). The employment began dropping after May (Mother's Day) and continued into July before stabilizing. An employment increase is expected next quarter as florists begin to gear up for the holiday season.

FINANCE, INSURANCE, AND REAL ESTATE (SIC 60-67)

Employment Change from year ago:	0.0%
Employment Change from previous quarter:	+0.5%

Currently, F.I.R.E. is the most stable industry group in the state. No major fluctuations have occurred.

SERVICE (SIC 70-89)

Employment Change from year ago:	+4.9%
Employment Change from previous quarter:	+5.2%

With an increase of almost 2,000 employees since second quarter, Hotels and Lodging (SIC 70) remains the leader in the services industries as the summer season continues. A 3.2% increase occurred over third quarter of 1986, and 7.3% increase since third quarter of 1985. This is expected to signal a continued improvement in the tourist activity in the state.

Amusement and Recreation Services (SIC 79) geared up for the summer with an employment increase of 17.8%. The majority of this increase appeared to be due to Professional Sports Clubs (SIC 7941, 79 additional employees), Public Golf Courses (SIC 7992, 47 employees), and Miscellaneous Amusement and Recreation Services (SIC 7999, 250 employees). Included in Miscellaneous Recreation Services are: amusement rides, boat rental, carnival operations, agricultural fairs, and swimming pools.

As expected, Educational Services (SIC 82) experienced a 17.9% drop in employment since the previous quarter. This major group includes all schools, colleges, and vocational schools.

EMPLOYMENT COMPARISON 1983-1987

The following ten graphs by major industry group compare employment for the years 1983, 1984, 1985, 1986 and 1987.

Note that seasonal industries in Montana include agriculture, forestry and fisheries; construction; manufacturing (due to logging); real estate, and services (due to the tourist trade). Also, there is a large drop in government employment during the summer months when public schools are closed.

Mining activity continues to improve as new sites are developed across the state. Transportation lost almost 260 employees from June to July which is attributed to the school bus companies laying off employees for the summer months. Service industries took the traditional employment jump as the tourist season progressed.

For a more detailed analysis of third quarter, 1987, see the quarterly review on page III.

WAGE COMPARISON 1983-1987

The following ten graphs by major industry group compare total wages paid for the years 1983, 1984, 1985, 1986 and 1987.

Note that seasonal industries in Montana include agriculture, forestry and fisheries; construction; manufacturing (due to logging); real estate, and services (due to the tourist trade). Also, there is a large drop in government wages during the summer months when public schools are not in session.

Quarterly wages in the mining industries surpassed last year's level and show promising signs of a continued recovery. Wages in the Service industries have increased at a steady pace, keeping well ahead of 1986 levels. While employment in wholesale remains slightly below 1986 data, wages have picked up and exceeded second quarter's level of 1987.

86/3 indicated third quarter 1986.
87/2 indicates second quarter 1987.
87/3 indicates third quarter 1987.

With an 8.4% employment increase and a 6.3% wage increase since second quarter of 1986, the mining industry outlook pulls ahead of last year. Services, as a major group, also has climbed above last year by 4.9% in employment and 8.1% in wages. Overall, the state has increased employment by 0.2% since third quarter of 1986 but dropped 0.7% since last quarter. The decrease in employment occurred in Government, specifically Local Government which includes schools and other educational services.
